

Call for Papers (abstracts): GOR Thesis Award 2021 Competition (at General Online Research (GOR 21), <https://www.gor.de>)

Conference date: 8 – 10 September 2021

Venue: HTW Berlin – University of Applied Sciences, Germany

Main topics: Online and Mobile Web Surveys, Data Science, Big Data, Smart Data, Political Research, Public Opinion, Political Online Communication, Online Market Research

GOR is organized by the German Society for Online Research (DGOF, <http://www.dgof.de>) since 1997.

Local Organizer: HTW Berlin – University of Applied Sciences, Prof. Dr. Holger Lütters

Deadlines

12 March 2021: Extended deadline for abstract submission for the GOR Thesis Award 2020 Competition

30 Juli 2021: Deadline for early registration and presenting authors

06 September 2021: Deadline for presentation upload

Research Topics

All submissions relevant to online research are welcome. Presentations in the past covered a broad range of topics, be it online surveys or research on the Internet as well as social aspects of the Web and experiences of the people using it. Since 1997, GOR has been attended by researchers and other professionals who want to stay on top of new developments and best practices for their work in companies and academia. The annual GOR Thesis Award Competition is an integral part of the conference series.

GOR Thesis Award 2021 Competition

Up to 3 bachelor/master/diploma thesis and, in addition, up to 3 doctoral theses will be presented at GOR in this category. Selected authors will present their findings at the GOR conference, and the best ones will be awarded a price for the best doctoral thesis and for the best bachelor/master/diploma thesis. The conference fee is waived for all presenters in this category. Accommodation and travelling fees need to be covered by the contestants. Theses must have been submitted in 2019 or 2020. Thesis language can be either English or German, but abstract submission and the presentation need to be in English.

Submission Format

Submissions should include the thesis as one PDF-file (either in English or in German), an extended anonymized abstract in English (limited to 7000 characters including spaces), a covering letter in English written by the contestant with details on affiliation, degree programme (please indicate PhD or bachelor/master/diploma level), supervisors, graduation date and thesis grade, together with an agreement to present the results at the GOR conference. Please note that all documents have to be submitted by the author of the thesis. All submissions need to be uploaded to the GOR 21 ConfTool (<https://www.gor.de/gor21/>). Presentations in the GOR Thesis Award 2021 Competition will last 15 minutes followed by 5 minutes of discussion. Registration to the conference is not necessary until you have received a notification whether your thesis has been selected for presentation at GOR.

Usually the GOR Conference Tool ("ConfTool") is available only a few months before the conference starts. During the time before the ConfTool is available you may just leave a message that you are interested in participating in this award. In that case please send a message to thesisaward@gor.de including your contact details and the title of your thesis. We will inform you as soon as the submission process starts. We are really looking forward to your contribution.

Review Process

First, all submissions will be anonymized and evaluated by a jury consisting of researchers from academia and business. The jury will compile a short list of researchers who are invited to present their work at GOR 21. Second, the jury then will judge the presentations at GOR 21 and award the best theses in a ceremony at the conference.
